#Problem 4 of Assignment
#I am assuming question has a typo and one of the value is stored in $t0

#We may not use mul/div but we can use sll and srl which equate to multiplication and division by powers of 2.

.data
A: .word 10000000
B: .word 222
C: .word 3
D: .word 40

.globl main
.text
main:
lw $t0, A
lw $t1, B
lw $t2, C
lw $t3, D

#calculate A/8 + B/4 + C/2 + D/2
srl $t0, $t0, 3
srl $t1, $t1, 2
srl $t2, $t2, 1
srl $t3, $t3, 1
add $t4, $t0, $t1
add $t4, $t4, $t2
add $t4, $t4, $t3 #$t4 now has the sum
move $a0, $t4 #Copying to a0 as per instructions.

li $v0, 17 #calling exit2 syscall
syscall
```
